The Japanese in MangaLand series from JPT introduced language learners to an innovative, entertaining and educationally-sound way of learning Japanese through the use of manga. Now, this same approach is applied to the often-daunting task of mastering kanji—the Chinese ideograms—in Kanji in MangaLand, the first of a 3-volume course covering the 1,006 basic kanji characters. Aimed at Western students aged 12-25, the Kanji in MangaLand program differs from traditional methods in that it uses distinct drawings for the "parts" that form each kanji character; then it shows a manga-style

illustration to help the student connect the shapes and the meaning. In addition, the books present information on compound words, stroke order, meaning and such unique features as identifying similar-looking kanji and alternative or older shapes for the same character. Kanji in MangaLand: Levels 1 & 2 includes 21 lessons. The first seven of these cover all 80 kanji characters learnt by Japanese children in their first primary school year. Lessons 8-21 cover the 160 kanji studied in the next year. In every lesson, the student will learn 8 to 12 kanji and then move on to the exercise section, which features one page of manga using all the characters learnt in that lesson; a page of different types of exercises; and a page with the correct answers, translations and a summary of the new drawing-compounds that will appear in the next lesson. The book also has two special exercise parts—one at the end of each level—as well as indexes of kanji and reading. With manga sales booming—in 2006, they approached \$200 million—and interest in learning Japanese skyrocketing as well, the Kanji in MangaLand series is the perfect blend of entertainment and solid language instruction to make learning fun and effective. 2 Best-sellers in 1 book! This book series includes everything you need to become an excellent and fluent English speaker! Have you ever been confused by the fact that the words 'though' and 'bough' are pronounced differently, or frustrated by the realisation that 'hint' and 'pint' don't rhyme? It is well known that the spelling system of English is notoriously unhelpful as an indicator of how to pronounce English words. Spoken and written representations of English are mutually inconsistent, making it difficult to interpret the 'logic' of the language. Learning to transcribe English phonetically, however, provides an accurate visual interpretation of pronunciation: it helps you to realise what you actually say, rather than what you think you say. English Transcription Course is the ideal workbook for anyone wishing to practice their transcription skills. It provides a series of eight lessons, each dealing with a particular aspect of pronunciation, and introduces and explains the most important features of connected speech in modern British English - such as assimilation, elision and weak forms, concentrating on achieving a relaxed, informal style of speech. Each lesson is followed by a set of exercises which allow for extensive practise of the skills learnt in both current and previous chapters. Students can check their progress with the 'model' answers provided in the appendix. You acquired English naturally. Not through the memorization of long lists of vocabulary, not through the tedious chore of learning bare-bones grammar-but through actually speaking it. This fact of nature is at the heart of Berlitz method for learning a new language, a method that has helped thousands enter an exciting multilingual world. Only the Berlitz Self-Teachers guarantee all these special features: · A unique series of specially designed oral exercises · Simple, practical pronunciations-at-a-glance · Exercises to make you think in your new language · Tested techniques based on a century of teaching experience With the Berlitz Self-Teachers as your guide you'll soon find that you can understand, speak, and even think your own thoughts in another language. As you read through the whole book of James, certain common themes begin to emerge: 1. He calls them "my brothers" very, very often. 2. He's not too impressed with "rich people". 3. He talks about a new kind of law: the "law of liberty". 4. He expects people of "faith" to be doing something. 5. He thinks talking is serious business. 6. He accuses them of thinking they are something great when they are not. 7. He advises prayer when any need arises. As you read, you realize that James had a few things to say—and I think he could barely get them on paper because of all the other things he kept thinking of, like sending the kid off to college, or off to camp and don't forget this—and don't forget this—and don't forget this. Brain Power Enrichment Programs aim to develop problem-solving abilities in students who wish to improve their skills. Additionally, the programs may provide challenging, stimulating and inspirational learning experiences through engagement with problem solving for gifted students. The Student Version book accompanies a Level One student through his/her second semester of the problem solving program (or it may be used independently as a problem solving workbook). However, this Teacher Version may be used by a teacher or tutor as it has, in addition to the content of the Student Version, short instructions for each lesson as well as answers to problems. All Brain Power programs are based on a step-by-step approach, which enables students to understand problems of increasing complexity. Level One begins to equip students typically in grades 4 to 6 with various problem solving strategies and techniques, and supports the application of these skills to math, language arts, study habits and the general learning process. In Level One, students are introduced to four critical steps in problem solving: 1) Understanding the problem 2) Defining a plan or strategy 3) Solving the problem 4) Checking the answer. The implications for improving one's problem solving skills are numerous. These include a more positive attitude toward math and science, improved thinking flexibility and creativity in all subject areas, as well as increased success in academic, gifted, university admissions, and professional program tests (many of which are designed with an emphasis on assessing higher-order thinking skills). Building Vocabulary: Foundations for grades 1-2, empowers beginning readers to learn words by identifying word parts or word families that share common sounds. Students will build vocabulary through the use of poetry, word endings, and simple roots. Building Vocabulary: Foundations: Level 2

Muslim people worldwide are turning to Jesus. How can they grow a strong identity as disciples of Christ and members of his community while still caring for their Muslim families? The 'Come Follow Me' discipleship course was written specifically for new believers from a Muslim background as they start to follow Jesus the Messiah. It comes in two parts, the study guide, which is needed by learners and Advisors, and the Advisor's guide, which is available to download for free from our website come-follow-me.org, or can be ordered from the Come Follow Me online shop. Come Follow Me is based on an inductive study of 1 Peter, and participants grow through a powerful combination of self-study, regular discussion with a mentor (or in a group) and practical learning tasks. It aims for deep-level discipleship, which affects issues of belonging (e.g. to old and new communities), worldview (including fatalism, revenge, good deeds etc) and behaviour (e.g. marriage relationships, conflict resolution).

"...By my God I have leaped over a wall." When Paul wrote this second letter to Timothy, Paul's time on earth was nearly over and he knew it. He had "fought the good fight", "finished the race", and "kept the faith." He had been given a job to do by His Savior, Jesus, and somehow, by the miraculous strength of God, he had done it! He had "leaped" over that wall! He is passing this incredible job of spreading the Gospel by planting and nourishing churches, to Timothy.
